Summer Youth Employment Program

Haysville, KS – The City of Haysville would like to encourage high school graduates who are in need of work experience and youth who are in need of their GED or diploma, to consider applying for the Summer Youth Employment Program (SYEP).

The program is being funded with stimulus money and is for youth, ages 18 to 24. The youth will be paid and may be placed at government, city, state, county, or non-profit worksites. The youth will be required to complete an educational component prior to placement and continuing throughout each week of employment, which will provide them with work readiness skills and familiarize them with work expectations.

Eligibility requirements, information, and the application for employment can be found online at www.workforce-ks.com. The deadline for applications is April 30, 2009.
