Baby Sarah Lane

Haysville, KS – Haysville City Offices received an interesting request from a Louisiana family, and were more than happy to accommodate. Harry Simon, from Eunice, Louisiana, emailed the City asking for a photo of the Sarah Lane street sign. In Texas, his granddaughter Sarah Lane had just been born and he was looking for a unique baby gift.

Simon had spent hours using the street view function of Google Maps, searching for street signs with the full “Sarah Lane” rather than the usual “Sarah Ln.” Haysville was the first one he came across and Simon stated “I virtually travelled scores of Sarah Lanes throughout the United States.” The City’s Multimedia Specialist Sean Conley gladly took a photo of the Sarah Lane & Main Street sign and emailed it to the proud grandfather.

Simon had also contacted Emprise Bank, located near the sign. Branch Manager Brandon Weiderholt also sent a photo and greeting card.

Simon printed and framed the photo, sending it to his daughter in Texarkana, Texas, where the Lanes reside. The proud mother has commented, “We used to live on a two-Lane road; now it’s a three-Lane road.”
