All Sessions by Appointment ONLY!

SESSION INFORMATION

Haysville Recreation is now offering a variety of fitness options meant to advance your overall health.

- The first option would be your FREE personal orientation that comes with every membership! The goal of these 2 - 30min sessions is to demonstrate proper technique and operation of the cardio and weight machines, and to show different methods of utilizing the equipment to maximize your own workouts!
- The second option would be the one-on-one sessions. This option will provide you with an ACE certified trainer who will create a tailor made exercise program to fit your individual health goals.
- The third option is designed for you and a buddy to work out together. Take advantage of training with a partner and being challenged by a program designed just for the two of you by an ACE certified trainer!
- Nutrition consultations are also available as part of your training or as a separate appointment.

*** By Appointment Only***

Our Approach

It is considered that optimal fitness is reached when an individual has achieved muscular strength, cardiovascular endurance and flexibility. We utilize the ACE IFT Model of Exercise to achieve this overall goal. This is broken down into four phases which gradually helps you reach your optimal fitness.

Benefits of Personal Training

- Lose Weight
- Increase Muscular Strength
- Muscle Definition
- Increase Flexibility
- Improve Posture
- Improve Balance
- Reduce Stress
- Improve Diet Habits
- Reduce the Risks of Heart-Related Illness
- Increase Energy
- Eliminate Boredom
- Get Motivated
- Improve Daily Function

More than Just "Personal Training"

We realize there are times when you need an extra motivator to keep hitting the gym. Maybe your goals have changed or you are looking for a different challenge. If this is you, keep a lookout for our Fitness Challenges, Bootcamps and nutrition classes that we will offer throughout the year!!

How to Get Registered
